**BIOGRAPHIES**

**Dr. Louis Eichel** is a graduate of the University of Rochester School of Medicine and Dentistry. Board certified in urology, he completed his residency at University of Rochester and completed 2 years of fellowship training in laparoscopy, endourology, and robotic surgery at the University of California, Irvine. In 2008, Dr. Eichel received the Resident Teaching Award from the University of Rochester Department of Urology. He has also taught several postgraduate courses on advanced laparoscopic and robotic urologic surgery and has published related articles, book chapters, and teaching videos. A recipient of the Pfizer Scholars in Urology Award, Dr. Eichel serves as an expert reviewer for Journal of Urology and the Journal of Endourology, where he is Top Reviewer. His professional memberships include the Endourology Society, the Society of Laparoscopic Surgeons and the American Urological Association.

**Dr. Jean Joseph** received his Bachelor of Arts in Biology from Boston University in 1988 and Doctorate of Medicine from the University of Rochester School of Medicine in 1992. Dr. Joseph completed his Residency in Urologic Surgery at the University of Rochester/Strong Memorial Hospital in 1998. He completed his fellowship training in reconstructive urologic surgery at the University College London in England in 2000, and completed a Master Class in laparoscopic prostatectomy in Paris in 2001. Dr. Joseph also earned his Masters in Business Administration from the Rochester Institute of Technology in 2004. Dr. Joseph's specializes in robotic surgery for urologic diseases, particularly prostate cancer. His areas of clinical and research interests have been on improving outcomes of men treated surgically for prostate cancer. He is known nationally and internationally for his work in this area. He is a pioneer in the field of robotic surgery, and recently served as President of the Society of Urologic Robotic Surgery. He has authored numerous medical journal articles on topics related to robotic and minimally invasive surgery. He serves as editor for "Doctor's advice" a patient oriented magazine focused on preventative health. He is a board-certified urologic surgeon. He is Professor of Urology and Oncology at the University of Rochester Medical Center, where he also serves as director of the Center for Robotic Surgery.

**Dr. Willie Underwood III** was appointed to the faculty at Roswell Park Cancer Institute (RPCI) in 2008. He serves in the Department of Urologic Oncology, providing clinical care to prostate cancer patients and their families, and in the Office of Cancer Health Disparities Research where his academic efforts focus on methods to improve the early detection and treatment of prostate cancer in medically underserved New Yorkers. Dr. Underwood came to RPCI from Wayne State University and Karmanos Cancer Institute, Detroit, MI, where he served as Assistant Professor in the Department of Urology. Dr. Underwood earned his medical degree in 1994 from the State University of New York at Syracuse, Upstate Medical University, Syracuse, NY and completed residency training in General Surgery in 1996 and Urology in 2000 at the University of Connecticut Health Center, Farmington, CT. He completed the Robert Wood Johnson Clinical Scholars Program in 2002 at the University of Michigan. He earned a Masters in Public Health (MPH) in Health Management and Policy in 2004 from the School of Public Health at the University of Michigan, Ann Arbor and then served as Assistant Professor in Urology from 2002 to 2005. Dr. Underwood is certified by the American Board of Urology. His research interests include factors influencing the racial treatment disparities in, and novel therapies for, prostate cancer. His research is funded by the National Institute of Health / National Cancer Institute. He has also received funding from the Robert Wood Johnson Foundation and the American Urological Association. He has been selected as a "rising star" in urology by the American Urological Association Foundation. Dr. Underwood is the Co-Principal Investigator on two National Institute of Health funded research grants entitled “Race, Prostate Cancer Treatment, and Treatment Decision Difficulty and Regret” (Dr. Heather Orom Co-PI) and the National Cancer Institute Community Network Partnership grant entitled “Western New York Cancer Coalition (WNYC2) Center to Reduce Disparities” (Dr. Deborah Erwin Co-PI). … Dr. Underwood’s efforts to improve the health and healthcare of the poor and disenfranchised extends beyond his highly funded research. He is known nationally for his involvement in healthcare policy and legislation. Also, he is a member of the American Medical Association’s Council of Legislation and is Chair of the Erie County Medical Society's Legislative Committee. Dr. Underwood has represented the American Urological Association and the American Medical Association on Capitol Hill regarding healthcare policies and legislation and potential impact on healthcare delivery for all Americans. Dr. Underwood, with a team of Nigerian Surgeons, performed the first reported radical prostatectomy in Nigeria.

**Dr. Jared B. Wachterman** joined UR Medicine Urology after completing his urological surgery residency and general surgery internship at the University of Vermont in Burlington, Vermont. He received his medical degree with special qualifications in Biomedical Research from the Cleveland Clinic Lerner College of Medicine of Case Western Reserve University. Dr. Wachterman has clinical expertise in all aspects of general urology, kidney stone disease, BPH and erectile dysfunction. Dr. Wachterman's goal is to provide his patients with compassionate and quality urologic care, close to home.

**Dr. Gareth J. W. Warren** joined UR Medicine Urology after completing a fellowship in Genitourinary Reconstruction at The University of Iowa Hospitals and Clinics. Dr. Warren completed his urology residency at the University of Michigan Medical Center. He received his medical degree from the University of Maryland School of Medicine (2005) and master's degree in Health and Health Care Research from the University of Michigan (2010) where he was a Robert Wood Johnson Clinical Scholar. Dr. Warren is licensed to practice medicine in the states of New York and Iowa and is a member of the American Urological Association and the Society of Genitourinary Reconstructive Surgeons. Dr. Warren has been the recipient of prestigious awards and honors including the Joanne Hatem, MD Memorial Prize for Humanism within the Clinical Study of Medicine from the University of Maryland School of Medicine. In addition, he was an inductee of the University of Maryland School of Medicine's Humanism Honor Society. Dr. Warren has clinical expertise in all aspects of general urology with a clinical emphasis on Reconstructive Urologic Surgery, Urethral Stricture Disease, Voiding Dysfunction, Male and Female Incontinence, Neurogenic Bladder and Erectile Dysfunction.

- **NOTE:** The above biography notes were copied from respective website pages at the University of Rochester Medical Center and Roswell Park Cancer Institute. Dr. Willie Underwood’s notes were edited for length.
